Art Unit: 1652

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-9, 16-20, drawn to a protein of SEQ ID NO:1, a pharmaceutical composition comprising the protein and the use of the protein as a medicament for the treatment of 4 different conditions.

Group II, claims 10-11, 14-15, drawn to a DNA sequence of SEQ ID NO:2.

Group III, claims 10-11, 14-15, drawn to a DNA sequence of SEQ ID NO:4.

Group IV, claims 10-11, 14-15, drawn to a DNA sequence of SEQ ID NO:6.

Group V, claims 12-13, drawn to a recombinant protein of SEQ ID NO:3.

Group VI, claims 12-13, drawn to a recombinant protein of SEQ ID NO:5.

Group VII, claims 12-13, drawn to a recombinant protein of SEQ ID NO:7.

The inventions listed as Groups I-VII do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The proteins of Groups I and V-VII are completely different chemical compounds from the DNA sequences of Groups II-IV. Because at least European Patent 0193330, included in the PCT search report, is prior art for the protein, the DNA is not a special technical feature of the protein and is properly restricted from it. The proteins of SEQ ID NO:1, 3, 5 and 7 and the DNA of SEQ ID NO:2, 4 and 6 are different and therefore are properly restricted.

Art Unit: 1652

It is noted that claims 18-19 are generic to any pharmaceutical composition whatsoever. However, for the purposes of this restriction it is placed Group I.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
